	Attest: Robert & Cothell
	Authorized Officer
	TuscARAWAS County, Ohio.

(A) Sections 135.03 and 135.07, R.C., provide that no eligible institution shall receive or have on deposit at any one time public moneys in an ag gregate amount in excess of thirty per cent of non-public moneys on deposit as shown in its latest report to the superintendent of banks or comptroller of the currency.

(B) No eligible institution shall be required or permitted to receive and have at any one time a greater amount of deposits than that specified in application of such depository. See Sections 135.04 and 135.07, R. C.

(C) Section 135.04, R. C., provides that any institution mentioned in Section 135.03, R.C., which has an office located within the territorial limits of the subdivision is eligible to become a public depository of the linactive and interim deposits of public money of the subdivision.

An institution located outside the subdivision may be awarded the linactive or interim funds only under the following circumstances:

In case there is no eligible institution which has an office located within the territorial limits of the subdivision;
 In case there is not more than one eligible institution which has an office located within the subdivision;

3. In case only one eligible institution applies for designation as a public depository of the inactive or interim deposits of the public moneys of the subdivision;

In case the aggregate amount of inactive or interim deposits applied for by such eligible institutions is less than the aggre

4. In case the aggregate amount of inactive or interim deposits applied for by such eligible institutions is less than the aggregate maximum amount of such inactive or interim deposits as estimated to be deposited pursuant to Sections 135.01 to 135.21, inclusive, R. C.

(D) Section 135.07 R. C., provides that the governing board shall award the inactive deposits of public moneys subject to its control to the eligible institution or institutions offering to pay the highest rate of interest on such deposits permissible at the commencement of the period of designation, in the amount as to each, specified in the application of the institution therefor. If two or more eligible institutions offer to pay the same permissible highest rate of interest on the amounts specified by the application, which in the aggregate exceed the estimated amount to be deposited at the beginning of the period, or the maximum amount thereof subject to deposit at any time during such period, the inactive deposits shall be divided and awarded among such eligible public depositories in proportion to their respective capital funds. If the aggregate amount of inactive public deposits as specified by application made therefor by the institution offering to pay the next, highest permissible rate of interest thereon is less than the amount of public moneys to be initially so deposited, or the maximum amount required to be deposited during the period, as so estimated, the board shall award the remainder of such active deposits to the eligible institution offering to pay the next highest permissible rate of interest thereon in the amount specified in its application. If the amounts so specified in the applications of two or more institutions offering to pay the same next highest permissible rate of interest are in the aggregate in excess of such remaining estimated or probable amount to be so deposited, then such remainder shall be divided among and awarded to each of such institutions in proportion to their respective capital funds. In case the ag and awarded to each of such institutions in proportion to their respective capital funds. In case the aggregate amount of inactive public deposits specified in the applications made therefor is less than the public moneys thereof to be initially deposited or the maximum amount required to be deposited during the period, as estimated by the board, such governing board may invite applications for the excess amount to such eligible institutions offering

the highest permissible rate of interest therefor.

(E) Section 135.13, R.C., provides that "Inactive deposits shall be evidenced by certificates of deposit, each of which shall mature not later than the end of the period of designation, and may provide on its face that the amount of such deposit is payable upon written notice to be given a specified period before the date of repayment."

(F) Section 135.09, R.C., provides that interim deposits may be awarded by the treasurer or the governing board as interim moneys be

(F) Section 135.09, R.C., provides that interim deposits may be awarded by the treasurer or the governing board as interim moneys become available and shall be for certain maturities of not less than thirty days nor more than one year.

(G) Section 135.09, R. C., provides that the treasurer or the governing board shall award interim deposits of public moneys to the eligible institution or institutions which offer to pay the highest permissible rate of interest on interim deposits.

(H) Section 135.13, R.C., provides that "Interim deposits shall be evidenced by certificates of deposits maturing in thirty or more days but in no event more than one year from date of deposit."

(I) Section 135.04, R.C., provides that any institution mentioned in Section 135.03, R.C., which has an office located within the territorial limits of the subdivision is eligible to become a depository of the active funds of the subdivision. An institution located outside the limits of the subdivision may be designated as the depository of the active funds only if the aggregate amount of active deposits of the public moneys of the subdivision applied for by the eligible institutions located within the subdivision is less than the aggregate amount to be deposited as such as estimated by the governing board.

(J) The governing board is authorized at any time during the period of designation to request new bids for interim deposits from eligible institutions, upon a determination by resolution that the applications for interim deposits in force no longer reflect prevailing interest rates when the treasurer or governing board consider that the terms of the applications for interim deposits no longer reflect prevailing interest rates.

(K) The governing board shall award the first twenty-five thousand dollars of the active deposits of public moneys subject to its control to the institution qualifying therefor on the basis of the operating needs of the subdivision. The governing board shall award the active deposits in excess of twenty-five thousand dollars to the eligible institution or institutions applying or qualifying therefor in proportion to their respective award quotas. The award quota shall be determined by dividing the capital and surplus into the number of its permanent offices wherever located to obtain the active fund quota of that institution. The active fund quota so determined shall be multiplied by the number of permanent offices such institution maintains in the subdivision and the result shall be the award quota for that institution in the subdivision. The term "permanent offices" as used in Section 135.04, R. C., "shall mean the principal office and branches not including intermittent branches." See Section 1101.01 (D) of the Revised Code for a definition of branch offices.

Section 1101.01 (l') of the Revised Code provides that "'Intermittent branch' means a branch at which a bank receives money or its equivalent for deposit on not more than three days a week at a given location, is housed in either a building or a mobile facility, and has been approved by the superintendent."
